Are you interested in making cheap calls to various countries around the world without sign-up or contract? No twenty digit PIN codes required either.

It is currently 1 cent per minute to call the UK, USA and others. You can also make calls within Italy for 1 cent per minute. Unfortunately calls to Ireland have gone up from 1 cent to 3.6 per minute - also for Germany, Finland, Australia and many more, but still cheaper than the standard Telecom rates.

All you have to do is dial the access number for the country you wish to call, then dial the full number you wish to call and end with the # (hash) key. The cost of the call is then added on to your telephone bill in the usual way.
