One of the best parts of this site will be our reviews section, but it will only be any good if everyone makes sure they add their own comments to the reviews.

I am slowly adding in as much main data as I can find, but I need everyone to tell me of any restaurants, businesses, places, etc... that are not in the lists but should be.

Also if there are any extra details I should have for a review (opening times, parking, etc...) that are important please feel free to drop me a line and I'll make sure it gets added.
